KUA I Copenhagen

Auditorium 22.0.11  
1. November 2013  
13.00-15.00

## BILLEDERNES MOBILITET

### Om det visuelle i homoseksuelle kulturer

Based on photographic material from Denmark, Germany and the US, the lecture will show in a paradigmatic way that pictures are not just static artifacts but rather must be understood through their inherent mobility. Taking picture production within gay cultures as a point of departure, it will be shown that iconographic documents are not only engaged with across national boundaries, but that – through processes of mediatization – private images of Self are promoted to a status of cultural icons.
